

Partner Presentation

Partner Logo	Partner Description
	<p>As a technology and systems provider, we are a global leader in the field of vehicle identification. From manufacturing licence plates to creating a central licence register, the company handles every step when it comes to successfully and securely identifying vehicles.</p> <p>With the RFID-based IDePLATE system, we have developed an electronic security licence plate that protects against manipulation and fraud whilst, at the same time, enabling smart applications. TÖNNJES products are already in use in many countries around the globe. We run more than 50 branches and joint ventures in Europe, Africa, Asia, North America and South America. By establishing local manufacturing and distribution companies, we are able to act as a service provider for the respective regulatory authorities or traffic police. We employ around 2,000 people worldwide. The Tönnjes family started its business activities back in 1832 in Delmenhorst, where the manufacturing site is still operating today and serves as an important technology supplier for us.</p>

Key Sectors	Solutions
<p>The product range can be split into the:</p> <ul style="list-style-type: none"> ▪ EVI (electronic vehicle identification) ▪ Software ▪ Security solutions ▪ Production technology segments 	<ul style="list-style-type: none"> ▪ TÖNNJES offers tailored solutions for vehicle identification made in Germany, which can also be integrated into existing systems.
